

September 28, 2021

Hello ~~

Hope everyone is getting back into their shops now that the cooler weather is here, less grass to cut and outside duties allow some of us time inside! Also, better start prepping for Christmas... a mere 88 days away 😊

We had fantastic weather for the BBQ on Saturday! The rain didn't start here until about an hour after the party ended! Good food, good friends and even some wood! Thanks to Shawn who brought some birch for a few members to take home. Thanks to everyone that also put something on the show and tell table – as well as a few bead bowls donated!

For those that were wondering the species of the big log on the patio, it is cherry! Yup, this will be an

anvil holder for a farrier. I'll send photos along when it is finished and oiled.

I'm sorry I missed last week's zooming skills night – I hear Richard did an amazing job on sharpening skills, something we all need a refresher on once a year.

The WGO is looking for a few things – upcoming skills night suggestions. Richard is running out of machines to demonstrate and work on 😊 - please let us know if there is something that interests you! Also, as some of you may see on the WGO website, we focus on one of our turners each month – October is this coming weekend and I don't have a new face for the front page – please email me if you would like to be featured!!

I'm excited about the upcoming monthly meeting on the 14th of October; we have our very own Frank DiDomizio demonstrating how to turn a square object! This is something I have always wanted to try and just never have – maybe this will be my kick start! Keep the 14th open – I've already got it on the calendar!

Also, a friendly reminder about our annual dues. Please submit your \$60 either by e-transfer to jackgelber70@gmail.com or by sending a cheque, payable to Woodturners Guild of Ontario, to:

Jack Gelber - 186 North Meadow Crescent,
Thornhill, ON L4J 3C5

Until then, Happy Turning!

Stay healthy, stay happy and keep smiling!
